SAVE & NURTURE CHILD CARE FOUNDATION

BI-ANNUAL REPORT

2019
MISSION

The foundation was created with the purpose to work with others to overcome the obstacles that poverty, hunger, malnutrition, violence, disease, developmental disabilities and discrimination place in a child’s path.

OUR PROGRAM

We focus on different programs and activities that create awareness and gender stereotypes and other social challenges, support and nurture a girl child, young women and the less and privileged children in Africa. Some of the programs are child security, ambassador programs and livelihoods programs.

OBJECTIVES

Our programs tackle the root causes of social and economical challenges such as child abuse, child labour, sexual harassment, hunger, poverty, gender inequality and other SDG challenges.
ABOUT US

our history

Save & Nurture Child Care Foundation (SNCC) discover, nurture and mentor a girl child, young women and help the less privileged children in Africa. We are one of the uprisings advocate for children with special needs and other developmental disabilities, with a growing presence in Nigeria. We believe that nurturing and caring for children are the cornerstones of human progress.

our mission & vision

We focus on different programs and activities that create awareness to end gender stereotypes and other social challenges, support and nurture a girl child, young women and the less and privileged children in Africa. Some of the programs are child security, ambassador programs and livelihoods programs. Our programs tackle the root causes of social and economical challenges such as hunger, poverty, gender inequality and other SDG challenges.

**CHART - GROWTH CHART FOR YEAR 2019**

- 2016: 195
- 2017: 58
- 2018: 18
- 2019: 10
WHERE WE ARE NOW

Nigeria, Cameroon, Kenya, Ethiopia, Uganda, Egypt, Jordan, Syria, Kyrgyzstan, Sudan and others

Save & Nurture Child Care Foundation is in over 20 less developed countries and other commonwealth countries through the active outreach activities of our ambassadors of change, the SNCC ambassador of change, who are in Nigeria, Cameroun, Sudan, Egypt, Kenya, Uganda, Jordan, Kyrgyzstan, and some other countries. We have been able to create a huge change and positive impact in the society to eradicate child abuse, child labour, gender stereotypes, domestic violence, gender base violence and other forms of abuse done to children in the societies.
WHAT WE DO

PROVING EARLY LEARNING SUCCESS
The early years are critical in shaping children’s development, as well as their lifelong capacity for learning. Save & Nurture Child Care Foundation together with partners, we’ve implemented powerful tool in 5 countries, making it available free of charge to reach as many early learners as possible.

SAVING NEWBORN LIVES
Newborn babies are especially vulnerable. Those under 26 days old represent 46 percent of all preventable child deaths. That’s why we’re doing whatever it takes to save newborn lives with proven programs, such as Kangaroo Mother Care, in 34 countries. Last year, Our health experts trained 59 frontline health workers. A record 90 percent of low-birthweight babies survived.

CHILD PROTECTION STEPS
Through our Child Protection approach, now being applied in over 30 countries, we’re helping some of the most vulnerable children in the world recover from trauma, ensuring they get the vital care they need as quickly as possible.

Our programs are developed to identify, develop, inspire and empower young women into active change makers in the society. These change makers engage in all the different projects and other programs to support and protect children in the society, such as the SNCC Kids Club, the Girls Not Slave and much more.
TOUCHING CHILDREN'S LIVES
Through our advocacy program, the SNCC Ambassadors of change in Cameroon were able to make a huge impact in the area of education and mentoring in Cameroon. With the support of the organization, the ambassadors have impacted over 1,000 less privileged children and abused children in Cameroon.
Save & Nurture Child Care Foundation have in their budget and plan to build learning centers and create an environment that produce exceptional girls who will drive change in communities in Cameroon. This will support girls traumatized by the anglophone crises in Buea Cameroon.

SNCC works with young ambassadors in Cameroon to transcend child abuse, child labor, illiteracy, poverty and gender-based violence. We do this by discovering young change makers in Cameroon. SNCC mentor them, inspire, engage and empower them to create change in their society, therefore focusing on both education and mental health of children in Cameroon.

TEAM CAMEROON
A magazine is a publication. Our team in Sudan are active young ambassadors of change who are committed and dedicated child advocates. They sensitize, train, and conduct sessions for young girls on how to protect themselves from abuse and the same sessions to primary schools during school visits.

Some of our Sudan team are human rights trainer at international Federation of medical student association. The country coordinator of Sudan is a local officer on human rights and peace, she is thereby ready to help, support and work with other advocates and women to ensure children rights and build to them a better life and future.

SNCC
TEAM SUDAN
SNCC TEAM JORDAN

The SNCC team and country coordinator of Jordan are active child advocates and activist who have dedicated their time and advocacy on children’s right in Jordan. What makes the team Jordan outstanding is, their passion and advocacy activities to help the disabled children.

Wesam Altali one of the the SNCC team and country coordinator in Jordan, she actively sensitizes and trains the disabled children and disabled young women on sexual harassment, how to protect themselves and other child-related challenges.
Team Jordan are very supportive and dedicated to create change in their society and actively represents the organization in conferences and international meetings such as the “International Children’s Conference in Jordan” and other conferences.

Thanks to the skills and commitment of our team and ambassadors of change in Jordan, which remain dedicated and committed to create change and support disabled children and disabled women in Jordan.

CHANGE ADVOCATES GLOBALLY
FOUNDER’S PERSPECTIVE

Educating Every Girl- Child

Lack of education and a sense of hopelessness and despair create a perfect environment for child abuse, trafficking as well as radicalization. Girls in particular are prevented from acquiring skills which can ensure their economic empowerment & contribution to economy growth.

Where We Were

In 2016, we crawled with only 10 staff, team and ambassador. Since 2015, we have been gradually implementing the SNCC Ambassador of change, the SNCC Kids Club and the SNCC Management Model within the Save & Nurture Child Care Foundation network.

Where We Are

Today, I am pleased to say that much effort has been made in this area, with convincing results. We’re on the right path! Also we are open to new members, the addition of new members will create a stronger network; a network better able to go farther, to make itself heard in forums and international meetings. Indeed, doing advocacy work, often in partnership with other NGOs, is one of SNCC’s strengths.

What We Stand For

As representatives of civil society, we are committed to upholding our convictions — in favour of the rights of children, including the right to better treatment. In favour of the empowerment of women.

Conclusion

In conclusion, I would like to once again thank all our team and ambassadors for the assistance they have brought to all those who call on us, for their programs for child protection and child abuse prevention and child treatment, health promotion, education and vocational training, help for homeless and abused children, assistance for struggling youths, and HIV/AIDS prevention. I love you all and I say, thank you to you all!

i want to leave a mark!
